PORTFOLIO

I'm a frontend developer who has a results-focused attitude to creating **SPA**, using **React(JS/TS)**, **Redux**.

I would like to find project work and full-time employment in a company with a modern approach to development and a collaborative team.

My free time is dedicated to [Codewars](#), programming tutorials, and becoming familiar with **NodeJS**, because, in the future, I see myself as a Full Stack Developer. Ready to consider project work and full-time employment.
