WORK EXPERIENCE

Technical support specialist
Avito.ru Saint Petersburg, Russian Federation
- From March 2019 to January 2022

- Solving users issues
- Working with the knowledge base (updating, editing)
- Interaction with payment aggregators
- Mentoring new employees.

An important addition related to the web-development, for the last 6 months, has been supplementing the functionality of the chrome extension for the admin part of the avito website. A script for the tampermonkey extension that simplifies and speeds up the work of support specialists. Automatic comments, additional buttons, etc.
